This is a Social Story™

This visual resource is designed to help prepare visitors for a new experience seeing an online event sponsored by The Clarice. This story is designed for students with sensory processing sensitivity or developmental delays, but can be used by any teacher wishing to prepare their class for a virtual event. Please use as needed as a classroom tool.

This is *The Clarice* at the University of Maryland.
I am going to see a show on my computer!
I will have a parent or guardian help me log on to the online show.
My guardian can help me control the brightness of my screen to a comfortable level.
I should find a **chair** to **sit on**.
I do not have to stay in one place. I can move around.
I can move freely. I can sing. I can dance. I can be myself. It is good to be free.
I will see a class about dance and movement. It is a sensory-friendly online event.
Ephrat Asherie will be my teacher. She will teach the class about dance.
I will listen to her instructions in the class. It will be really fun!
The music can be **loud**.
My computer can make **loud noises**.

♫
I can **cover my ears** if it is loud.
My guardian can also help me lower the volume of the computer.
My guardian will help me log off.
I did a **great job** today! It is **fun** to watch online events with The Clarice!
